N2 Japanese Speaker with Computer Science System Engineering  
Semenyih

## Summary

I am graduated with a bachelor's degree in Computer Science System Engineering from the University of Miyazaki, Japan. I am ready to utilize my skills and contribute my engineering knowledge to further a company's mission in their engineering development.

My last project in university is to develop new CAPTCHA security that is user-friendly while providing protection that can prevent current bots technology from breaking into a particular website and application.

Programming Skills : HTML, CSS, JavaScript, PHP, C, Python, MySQL, PostgreSQL

Languages : Malay, English, Japanese

---
